

Evergreen 2.0 Software Update

The Evergreen 2.0 software update brings many new and improved features to the Evergreen ILS. On Sunday, March 20, Evergreen Indiana will be upgraded to the 2.0 software update. The update will allow both customers and staff to do more than ever with Evergreen.

More information regarding the simple instructions for upgrading Evergreen Staff Clients, as well as 2.0 features will be provided in the coming weeks.

OPAC Features

Self Service Password
Reset

A screenshot of a web form titled 'Evergreen Indiana OPAC Password Reset'. The title is in orange text. Below the title, there are two input fields: 'New password:' and 'Re-enter new password:'. A 'Submit' button is located below the second input field. The form is set against a light blue background with a white border.

Save time on calls from patrons who are unable to access their OPAC My Account page. With 2.0, patrons with valid email addresses on file will be able to utilize the Self Service Password Reset feature to create a new password without library intervention.

Faceted Searching

Faceted searching, also called faceted navigation or faceted browsing, is a technique for accessing a collection of information represented using a faceted classification, allowing users to explore by filtering available information.

For example, in a search for “Harry Potter” the user is given the ability to click on various facets to narrow the search.

The screenshot shows a faceted search interface with a light green background. At the top, there are three buttons: 'All items', 'Refine', and 'Clear filters'. Below these, the word 'Subject' is displayed in bold. The interface is divided into several sections, each with a facet name and a list of items with counts. Each section has a 'More...' button to its right.
