Overdrive is our Middleman...

Overdrive gives publishers a place to make their content available digitally. Publishers decide what kind of access the listener will have regarding their titles.

PUBLISHERS ONBOARD WITH OVERDRIVE

Here is how it works...

- We order content from Overdrive's content reserve system, similar to how we order books.
- Within 24 hours those titles are available in our system.
- Patrons access the system via the direct website <http://cidc.lib.overdrive.com> or via your library website.

How it works cont...

- They download the free software linked from the eIndiana site.
- Patrons then browse, checkout, and download their titles using their library card and PIN.
- They can then enjoy their books on their computer or transfer them to a device.

A quick walkthrough...

Step 1: The patron will need to download free software...

- The circulation period is either 7 or 14 days and is chosen by the patron at the time of checkout.
- They can place 3 holds on their account. They will be notified via e-mail when their hold is available and they have 3 days to check out the item after being notified.

Circulation Rules Cont...

Pricing Audiobooks...

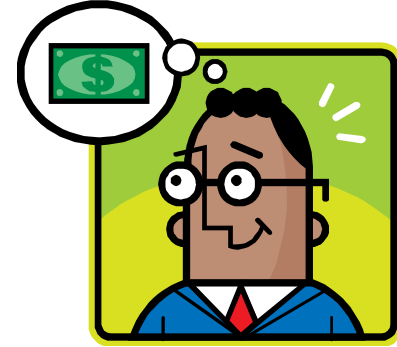

- Purchase titles individually—1 copy 1 user. Titles purchased yours “forever.”
- “Max Access Plans” are available....
- Purchased individually, prices range from about \$20 to \$100. Prepare to spend about \$50 per title realistically.
- You also pay a yearly software fee based on population served.

Pricing eBooks...

- Purchase titles individually—1 copy 1 user. Titles purchased are yours “forever.”
- “Max Access Plans” are available....
- Purchased individually, prices range from about \$1 to \$40. Prepare to spend about \$25 per title for newer releases but older titles are much cheaper.

What kind of numbers do we see?

- We've been "live" with Overdrive since October of 2010. We started out as a 7 library consortium. The first month we averaged 13 downloads per day.
- Last month we averaged 45 downloads per day.
- As of March 1, 2011 we are now a 31 library consortium.

Sounds good, right?

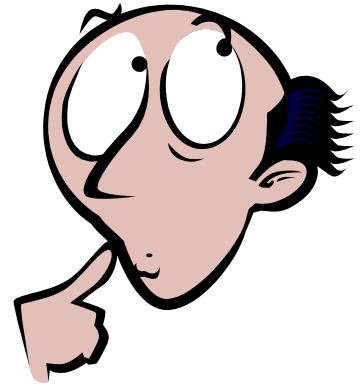

Image of Dr. Phil courtesy of the blog, "Anna Renee is Still Talking"—please don't sue me!

There is a lot of current discussion about consortium sizes and limits on downloads...what does that mean for us?

- We have no idea what the future holds. We do know that ALA has formed a group, Equitable Access to Electronic Content (EQUACC) to fight for our electronic content rights.
- We also know that one publisher (Harper Collins) has put a limit on the number of times their books can be downloaded. Other publishers may follow suit, but as of right now they are the only one with these restrictions.

Step 2 - Activate the software

After you have installed the software that you downloaded, you need to take steps to activate the software before downloading digital materials.

Adobe Digital Editions requires activation.
Adobe Digital Editions can be activated anonymously or by using an Adobe ID. Anonymous activation allows you to download and read DRM-protected eBooks on a single computer only. Activating using an Adobe ID allows you to download and read DRM-protected eBooks on multiple computers and to use supported eBook devices.

- [For more information on activating Adobe Digital Editions, click here.](#)

OverDrive Media Console for Windows requires a security upgrade.
OverDrive Media Console for Windows utilizes Windows Media® Player 9 Series (or newer) to play DRM-protected files. The first time that Windows Media Player attempts to open a DRM-protected file, it will alert you that a security upgrade must be performed before the file can be opened. The upgrade takes just a few moments.

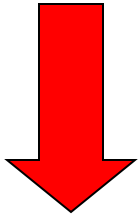

Only OverDrive Media Console for Windows requires a security upgrade. All other versions of OverDrive Media Console do not require security upgrades.

- [For more information on OverDrive WMA Audiobooks and upgrading Windows Media Player, click here.](#)
- OverDrive MP3 Audiobooks do not require the Windows Media Player Security Upgrade.

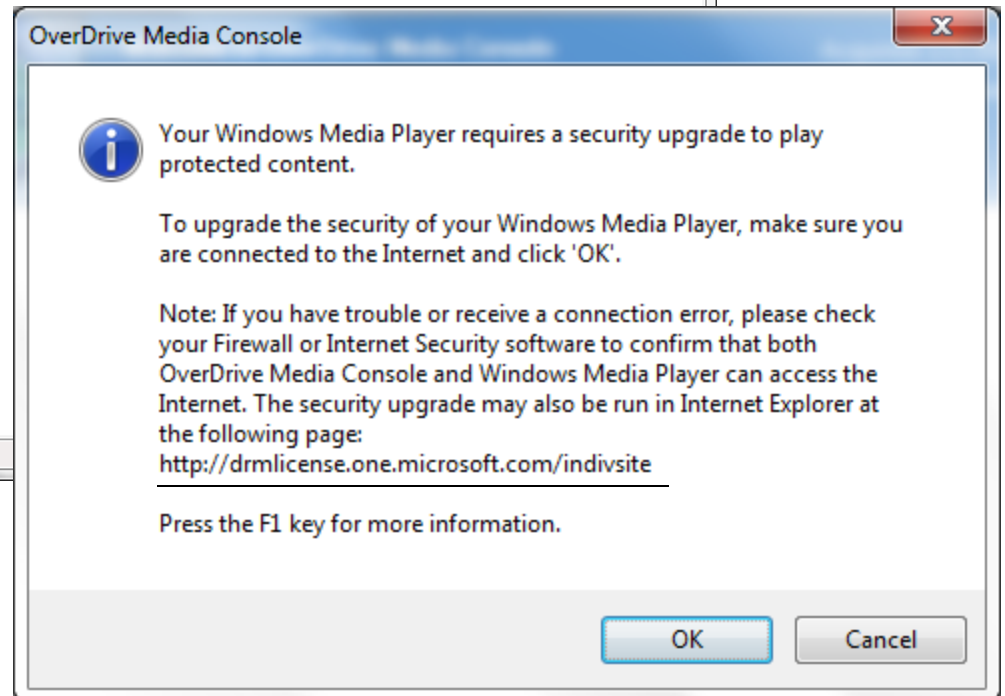

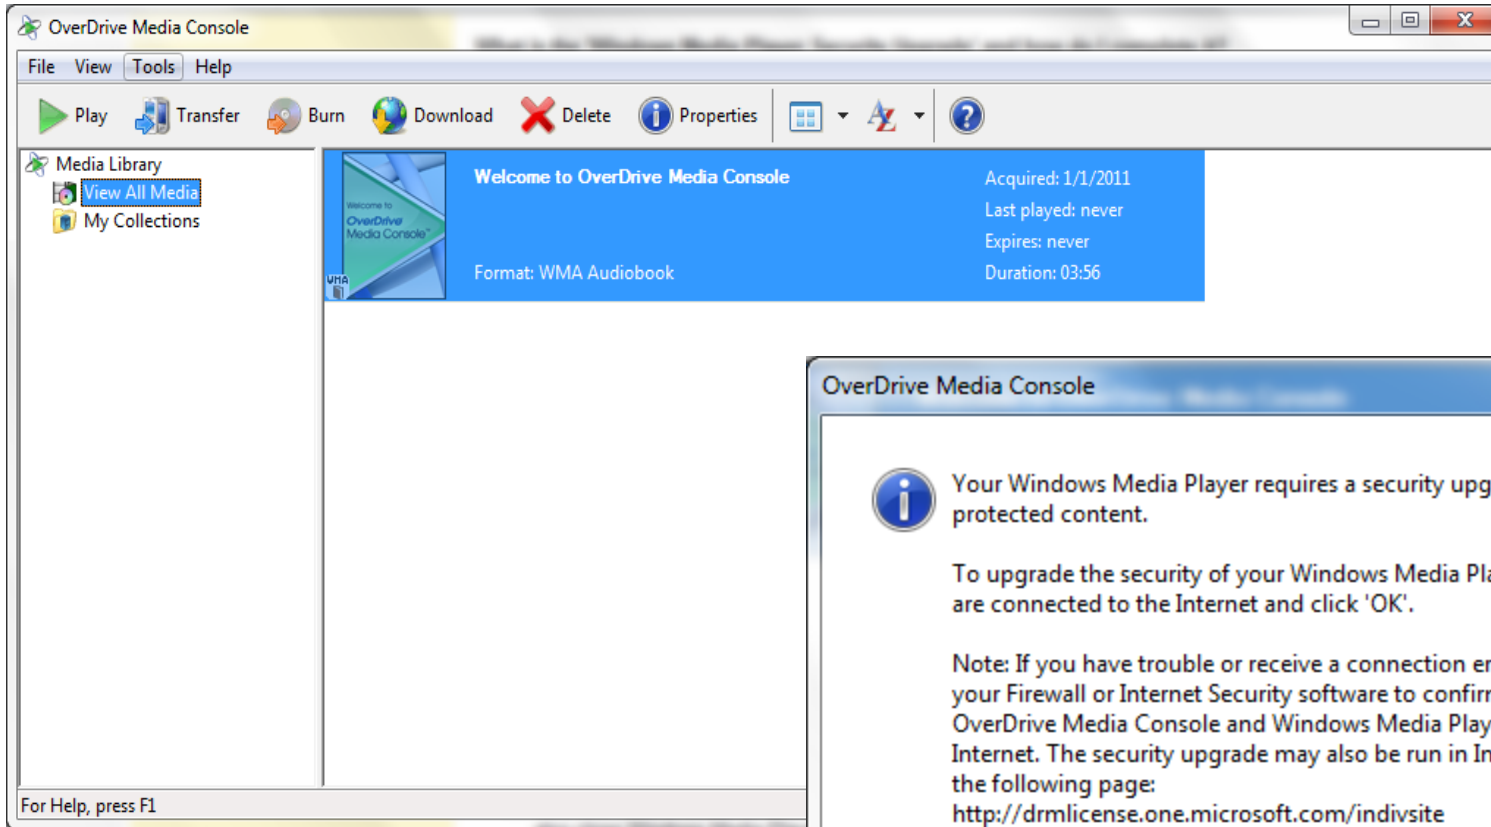

[Back to top](#)

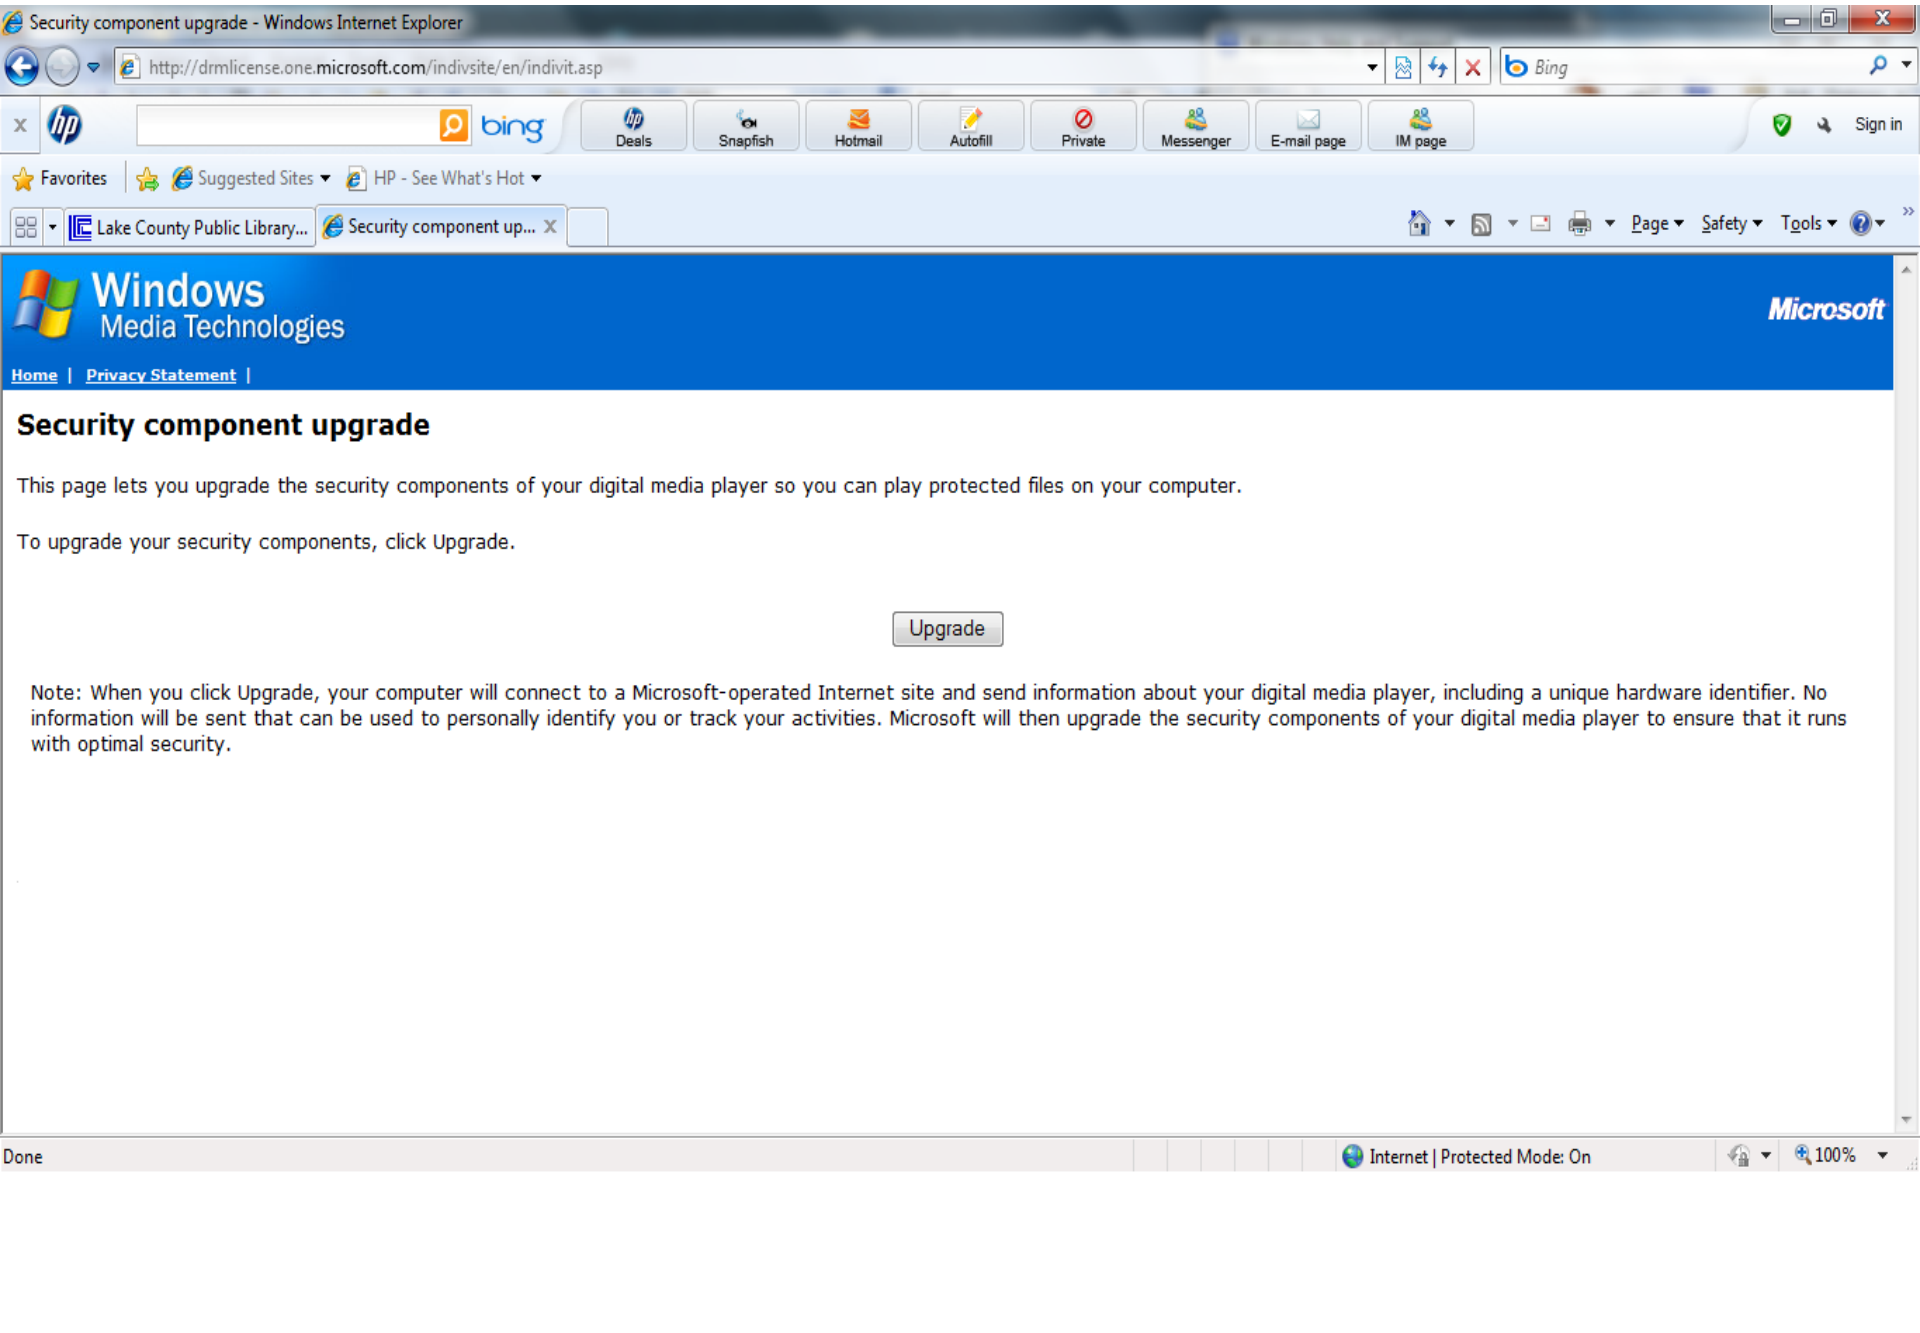

Step 3 - Check out, download, and enjoy

Browse or search this site for downloadable materials. When you locate a title of interest, add it to the cart and

Security Upgrade

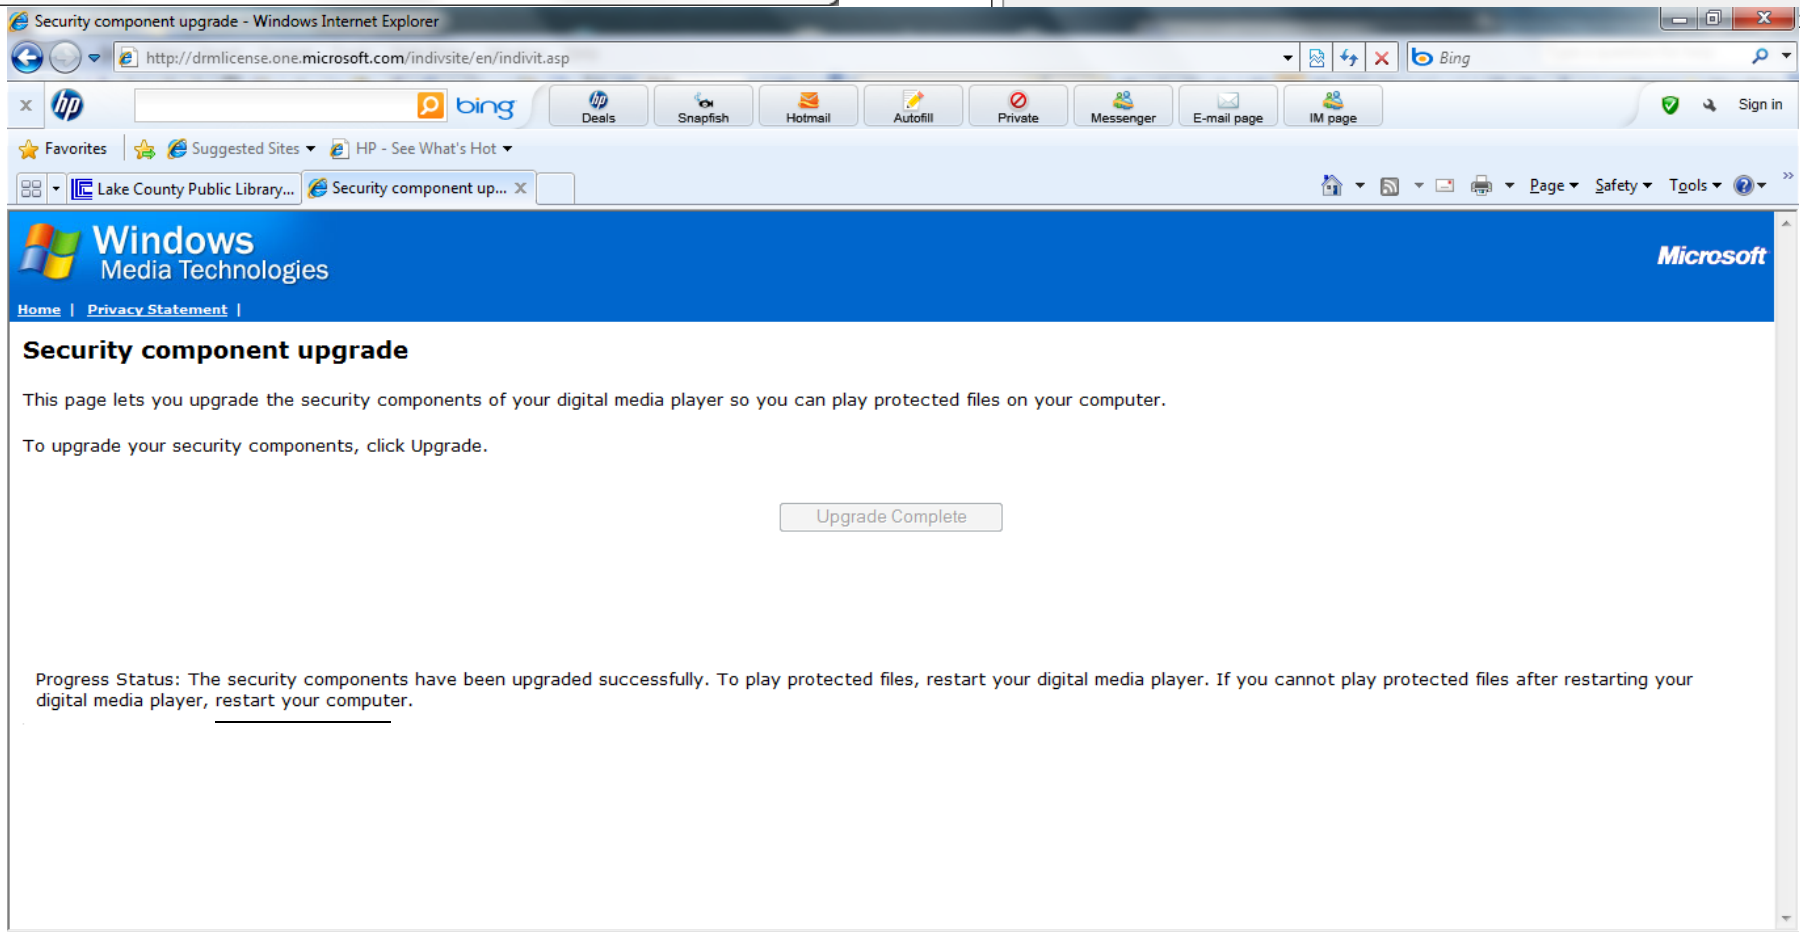

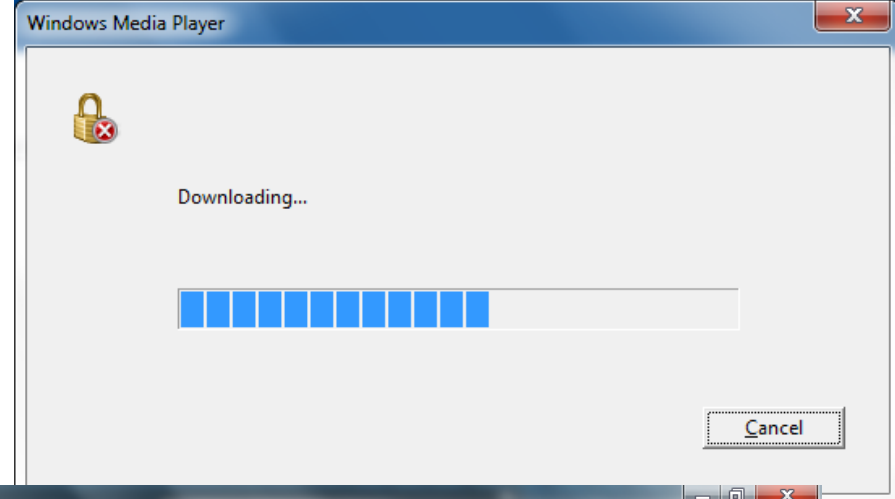

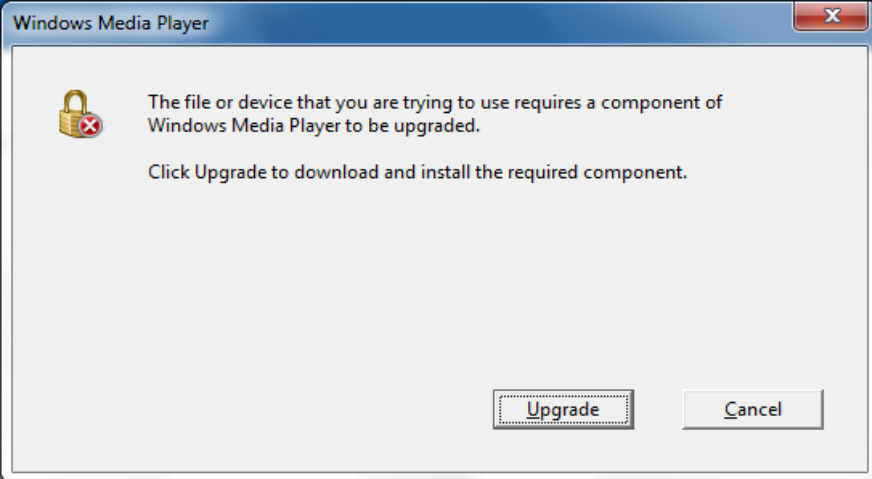

Security component upgrade

This page lets you upgrade the security components of your digital media player so you can play protected files on your computer.

To upgrade your security components, click Upgrade.

Upgrade

Note: When you click Upgrade, your computer will connect to a Microsoft-operated Internet site and send information about your digital media player, including a unique hardware identifier. No information will be sent that can be used to personally identify you or track your activities. Microsoft will then upgrade the security components of your digital media player to ensure that it runs with optimal security.
