- Accurate search results depend on proper coding of fixed fields!

# What is the 007 field?

- Physical Description Fixed Field
- The 3XX fields also contain information about the physical characteristic of an item, but are variable fields.
- The 007 is a fixed field that must be coded properly for the correct icons to appear in latest E.I. upgrade.
- Repeatable when more than one material type associated with a record.
- Not usually used for books.

# Example of DVD 007 Field

007			vd cvaizq
-----	--	--	-----------

- First and second indicators are blank.
- Codes or values only displayed, no subfield delimiters.
- Values are in specific positions or bytes.
- Third space/position or subfield is always blank.

# Physical Characteristics Wizard

- Position your mouse in the 007 field, and right click.
- The wizard asks a series of questions and you select the appropriate option in the drop-down menu.
- The wizard builds the 007 field with values based on the options you choose.

# Physical Characteristics Wizard

- Navigate through the wizard using Next and Previous and selecting options using the drop down menu:

- When you get to the end, click OK to save:

# Physical Characteristic Wizard

- Makes it easier to correctly code the 007 field.
- You still need to know the correct options for your item.
- Don't just guess, look it up:

# Kits

- Remember the 007 field is repeatable.
- Use as many 007 fields as materials you have in the kit.
- The template includes two 007 fields: one for a DVD and one for a CD.
- Edit as needed.

# Kits

- Kit Icon: 
- Other icons can appear as well based on material in the kit and their 007 fields:

## Civics and citizenship toolkit a collection of educational resources for immigrants
